

Analyze with Confidence MXG Signal Generator from Keysight

Test Your R&D Device and System Within and Beyond Its Limits

On the path to better performance, the Keysight's MXG signal generators are fine-tuned signal sources in R&D measurements. Whether you're pushing for a linear RF chain or an optimized link budget, the analog and vector MXG models deliver the performance and capabilities you need: phase noise, ACPR, channel coding, and more.

Keysight MXG Signal Generator

TRS-RenTelco is proud to be certified as a Keysight Technologies Premier Rental Partner.

This partnership combines Keysight's expertise in technology with TRS-RenTelco's over 40 years experience in the test equipment rental industry.

As a certified Premier Rental Partner, TRS-RenTelco not only stocks a large inventory of frequently requested Keysight equipment, but also receives priority delivery of Keysight's newest product technology.

TRS-RenTelco offers short and long term full-service leases, rentals, rentals with purchase option, and sales of pre-owned equipment.

TEST EQUIPMENT AS-A-SERVICE

We also offer trade-in programs to keep your inventory up-to-date with the latest technology.

With thousands of models available, most orders are shipped by TRS-RenTelco for delivery the next business day.

TRS-RenTelco provides you with the latest technology, when you want it, for as long as you need it, at an excellent value!

Equipment now. Service beyond.

IN STOCK AND READY TO SHIP

TRS-RenTelco Premier Rental Program Benefits

Availability: access to a large inventory of Keysight equipment – when you need it

Response: quick and thorough support to address your pre-sales and post-sales technical questions

Execution: you can depend on us to get it done no matter what

Variety of flexible financial solutions

- Month-to-month rentals
- Rent-to-own options
- Operating leases
- 0% finance leases
- Long-term capital leases
- Purchase & Sale of quality pre-owned equipment

Keysight MXG Signal Generator

In consumer wireless, military communications, or radar, you face an ongoing bandwidth crunch in a spectrum that is filled with interference. Testing your devices via signal simulation is critical. MXG Signal Generators provide precise, highly stable test signals for a variety of components and system test applications.

- Address the demanding tests requirements of radar modules and systems with excellent phase noise
- Keep pace with the latest data throughput in LTE-Advanced and 802.11ac WLAN with 160 MHz bandwidth and EVM down to 0.4%
- Drive power amplifiers and characterize nonlinear power amplifier behavior with industry-leading ACPR and output power
- Accelerate your calibration process with switching speeds of less than 600 us

24/7/365 customer support available

ISO 9001:2015 registered

A2LA accredited to: ISO/IEC 17025, ANSI/NCSL Z540-1 and ANSI/NCSL Z540.3

Same day shipping available until 8 pm Central Time

TRS-RenTelco and Keysight, partnering to provide the technical and financial solutions you need to meet the challenges of today's fast-paced business.
