

## Single Mode Adapters

# Single Mode Fiber Testing

WireXpert's Single Mode fiber adapters offer unmatched performance in certification testing of fiber optic cabling. In addition to 6-second dual-ended, dual-wavelength certification testing, WireXpert provides intuitive graphical workflow for bi-directional testing.

- Fast, 6-second autotest performs dual-wavelength certification testing
- Intuitive selection of test configuration and reference setting
- 1, 2, or 3-jumper referencing
- Seamless reporting in eXport software together with copper test results
- Automated standards based label creation
- Light source and power meter functions...converts WireXpert into two independent instruments
- Certification single-fiber links in addition to duplex links
- Independent loopback testing using WireXpert Local or Remote units, doubles test capacity

Product	Part Number	Item Description
WireXpert Singlemode Fiber Adapter Kit	WX-AD-SM2	Includes set of fiber optic test adapters for certification testing at 1310 nm and 1550 nm. Also includes two duplex reference test cords.
